Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of 1-39 in the reply filed on 7/30/2007 is acknowledged. The traversal is on the ground(s) that the apparatus claims and method claims are similar. This is not found persuasive because the apparatus can be used in a method other than with tissue.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-13, 18, 20-27, and 30-34 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pierce 5405359.

4. Pierce discloses the claimed invention except for at least three anchor members. It would have been obvious to one having ordinary skill in the art at the time the invention was made to have at least three anchor member, since it has been held that mere duplication of the essential working parts of a device involved only routine skill in the art. *St. Regis Paper Co. v. Bemis Co.*, 193 USPQ 8.

5. As to claims 2, 4, 8, 10, 11-13, 23, 24, 26, and 31 Pierce fails to teach a triangular-shaped arrangement or a parallel relationship of the at least three anchor members. However, it would have been obvious to one having ordinary skill in the art to

use a triangular-shaped arrangement or a parallel relationship because the shape of the arrangement is a mere design choice and that any shape would perform equally well.

Furthermore, the applicant has not disclosed that the specific type of shape arrangement solves any stated problems or is for any particular purpose and it appear that the invention would perform equally well with the shape arrangement taught by Pierce.

FIG. 29

Allowable Subject Matter

6. Claims 35-39 are allowable over the prior art of record.
7. Claims 14-17, 19, 28, and 29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
